DHS Training and Resources

Permian Basin Oil and Gas Supply Chain Resilience Workshop

September 30, 2015

Homeland
Security

Sector Outreach and Programs Division (SOPD)

- Mission:
 - To build, align, and leverage national public-private stakeholder partnerships and partnership programs to enhance critical infrastructure security and resilience.

**Homeland
Security**

Sector Outreach and Programs Division (SOPD)

- SOPD mission executed through:
 - Education and Training.
 - Exercises.
 - Tools.
 - Information Sharing.

Education and Training

- Vehicle Inspection Guide
 - How to mitigate risk from Vehicle Borne Improvised Explosive Devices (VBIED) and strengthen protection of critical infrastructure by providing a step-by-step explanation of how to conduct a thorough vehicle inspection systematically, efficiently, and safely.
 - For more information contact the IP Protective Security Coordination Division, Office of Bombing Prevention at: OBP@hq.dhs.gov.

Education and Training

- Chemical Sector Training and Resources Guide
 - The guide contains a list of free or low-cost training, Web-based classes, seminars, and documents that are routinely available through one of several component agencies within DHS.
 - For more information contact the Chemical SSA at:
ChemicalSector@hq.dhs.gov.

Education and Training

- Workplace Security Awareness
 - The course promotes workplace security practices applicable across all [16 critical infrastructure sectors](#). Threat scenarios include: Access & Security Control, Criminal & Suspicious Activities, Workplace Violence, and Cyber Threats.
 - FEMA website: <http://training.fema.gov/EMIWeb/IS/IS906.asp>.

Education and Training

- Surveillance Awareness: What You Can Do
 - This course provides an overview of surveillance activities and the indicators associated with them, as well as the actions that employees and service providers can take to report potential surveillance incidents.
 - Certificate awarded at completion of course.
 - FEMA website:
<http://training.fema.gov/EMIWeb/IS/courseOverview.aspx?code=IS-914>.

Exercises

- Dealing with Workplace Violence Tabletop Exercises
 - This exercise addresses workplace active- shooter situations through three modules: the pre-incident phase, including recognizing potential warning signs of workplace violence; the incident and response phase; and the assessment phase.
 - For more information contact the Sector Outreach and Programs Division at: SOPDExecSec@dhs.gov.

Exercises

- Regional Resiliency Assessment Program (RRAP) Discussion Based Exercises
 - These exercises are offered to those jurisdictions participating in the RRAP. The core objective will be to determine changes to a jurisdiction's/sector's overall baseline resilience as a result of the implementation of suggested protective measures highlighted by the RRAP process.
 - For more information contact the Sector Outreach and Programs Division at: ip.exercise@hq.dhs.gov.

Exercises

- Emergency Services Sector-Specific Tabletop Exercise Program (ES-SSTEP)
 - This tool allows critical emergency services personnel to develop interactive, discussion-based exercises for their communities of interest, be it at the sector or a facility level.
 - For access and more information, contact the Emergency Services Sector at: ESSTeam@hq.dhs.gov

Tools

- Homeland Security Information Network (HSIN)
 - Web-based knowledge management tool that provides reliable and secure information sharing between partners engaged in the homeland security mission.
 - HSIN is a secure system and access to compartments is granted by invitation only. Applications can be obtained by sending a request to: CIKRISAccess@hq.dhs.gov.
 - For more information, visit: www.dhs.gov/hsin or contact the HSIN Help Desk: 1-866-430-0162, hsin.helpdesk@dhs.gov.

Tools

- Business Continuity Planning Suite
 - The Suite includes: business continuity planning training, business continuity and disaster recovery plan generators, and a business continuity plan validation.
 - The planning suite can be located at:
<http://www.ready.gov/business-continuity-planning-suite>.

Tools

- Suspicious Activity Reporting for Critical Infrastructure Tool
 - Critical infrastructure stakeholders can report suspicious or unusual activities to the government via sector portals on the Homeland Security Information Network-Critical Infrastructure (HSIN-CI). Reports submitted via the tool are reviewed by the National Infrastructure Coordinating Center (NICC), shared with appropriate government recipients, redacted and posted to HSIN-CI.
 - To request access to HSIN-CI, please contact: HSINCI@dhs.gov.
